

Therapy area expertise

Oncology & haematology

- AML, beta thal., CLL, CTCL, DLBCL, essential thrombocythaemia, Hodgkins, iNHL, MCL, MDS, MF, MM, Waldenström's
- Breast, CRC, endometrial, gastric, GBM, HCC, melanoma, NSCLC, oesophageal, prostate, RCC, SCLC
- Lynch syndrome, anorexia cachexia
- Diagnostics, radiotherapy planning

Rare diseases

- Acid sphingomyelinase deficiency, acute hepatic porphyria, adrenal insufficiency, aHUS, aTTP, CDKL5 deficiency, DMD, Gaucher's, HAE, hATTR, inherited retinal dystrophy, IPF, ITP, Niemann-Pick, PNH, SBS, X-linked hypophosphatemia

Medical devices & diagnostics

- Artificial intelligence programmes
- Digital mental health therapies
- Cardiac resynchronisation
- Cochlear implants
- Storage of donated kidneys
- Screening and surveillance policies
- Biomarker tests
- Colostomy bags

CNS

- Alzheimer's, dementia, epilepsy inc. DS, LGS, TSC, migraine, MND, MS, stroke, spasticity post stroke

Psychological and mental health

- Agoraphobia, ADHD, anxiety, depression & MDD, Asperger's syndrome, bipolar, psychosis, schizophrenia
- Opioid addiction, alcohol misuse, perinatal mental health problems, smoking cessation

Immunology

- Dupuytren's, GCA, lupus, psoriatic arthritis, RA
- IBD: Crohn's, UC

Complementary medicines

- **Cardiovascular:** AF, CHF, hypercholesterolemia, IV iron, pulmonary rehab
- **Female health:** IVF, uterine fibroids, post-partum haemorrhage, pregnancy and childbirth
- **Inflammatory:** actinic keratosis, atopic dermatitis, cholecystitis, pancreatitis, vitiligo
- **Interventional procedures**
- **Ophthalmology:** geographic atrophy, inherited retinal dystrophy, wet AMD
- **Respiratory:** allergic rhinitis, asthma, COPD
- **Others:** carpal tunnel syndrome, diabetes, erectile dysfunction, falls prevention, fractures, haemophilia, Hep C, HIV, kidney transplant rejection, major trauma, multimorbidity, nocturia, obesity, physical inactivity, spinal injury, SHPT

Abbreviations

ADHD, attention deficit hyperactivity disorder; AF, atrial fibrillation; aHUS, atypical haemolytic uraemic syndrome; AMD, age-related macular degeneration; AML, acute myeloid leukaemia; aTTP, acquired thrombotic thrombocytopenic purpura; CHF, congestive heart failure; CLL, chronic lymphocytic leukemia; COPD, chronic obstructive pulmonary disease; CNS, central nervous system; CRC, colorectal cancer; CTCL, cutaneous T-cell lymphoma; DLBCL, diffuse large B-cell lymphoma; DMD, duchenne muscular dystrophy; DS, dravet syndrome; GCA, giant cell arteritis; GBL, glioblastoma; HAE, hereditary angioedema; hATTR, hereditary transthyretin amyloidosis; HCC, hepatocellular carcinoma; Hep, hepatitis; HIV, human immunodeficiency virus; IBD, inflammatory bowel disease; iNHL, indolent Non-Hodgkin's Lymphoma; IPF, idiopathic pulmonary fibrosis; ITP, immune thrombocytopenia; IV, intravenous; IVF, in vitro fertilization; LGS, Lennox-Gastaut Syndrome; MCL, mantle cell lymphoma; MDS, myelodysplastic syndrome; MF, myelofibrosis; MM, multiple myeloma; MND, motor neurone disease; MS, multiple sclerosis; NSCLC, non-small cell lung cancer; PNH, paroxysmal nocturnal haemoglobinuria; RA, rheumatoid arthritis; RCC, renal cell carcinoma; SBS, short bowel syndrome; SCLC, small-cell carcinoma; SHPT, secondary hyperparathyroidism; TSC, tuberous sclerosis complex; UC, ulcerative colitis.
