

Do you work with **young people** living in families **affected by dementia**?

Would you like to help **develop digital resources**, to support **children and young people affected by dementia**?

What would you be asked to do?

We would ask you **to attend one online workshop** to **review two prototype digital resources**, developed and **co-produced by young people**, such as an animation or TikTok video, which will be used to support other young people affected by dementia.

If you would like more information about this study, and what it might involve, please contact researchers at carecoach@uea.ac.uk or Dr Jane Cross on j.cross@uea.ac.uk or **01603 593315**
